Jett Tailfin Racers for Android

Jett Tailfin Racers is a new underwater racing game coming to Tegra-based Android devices in February 2012. It will have mechanics similar to 'kart' racing games such as power-ups. In Single player mode you will be able to unlock tracks which can then be used in Multiplayer Mode. Multiplayer Mode works like Diablo 2 where you have a host of a game who picks tracks to race on. Each multiplayer game can have up to 8 people in it.
